

Coracobrachialis

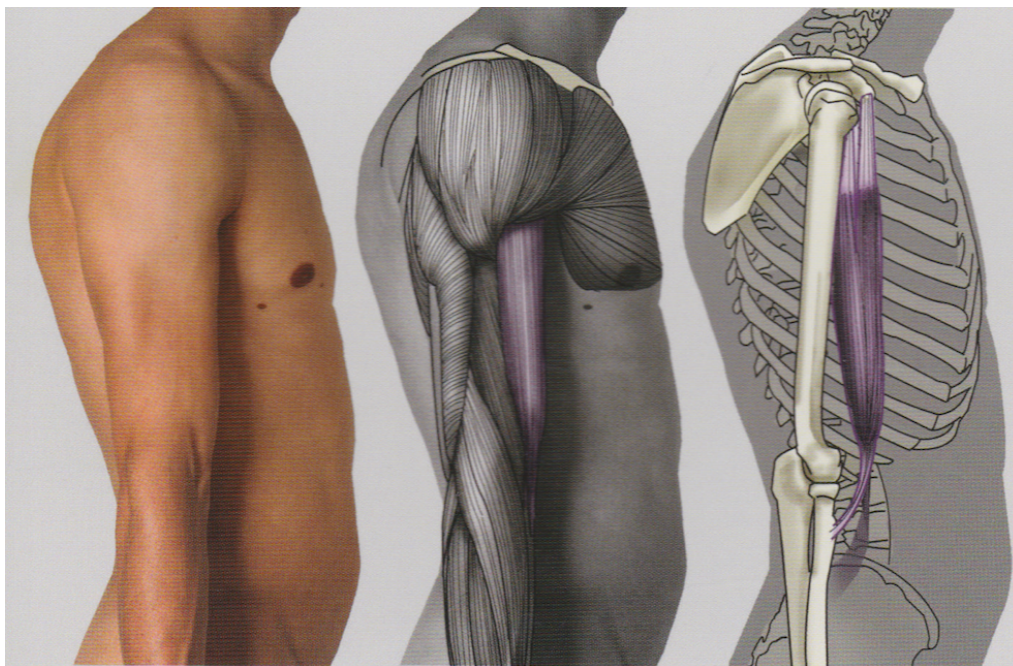

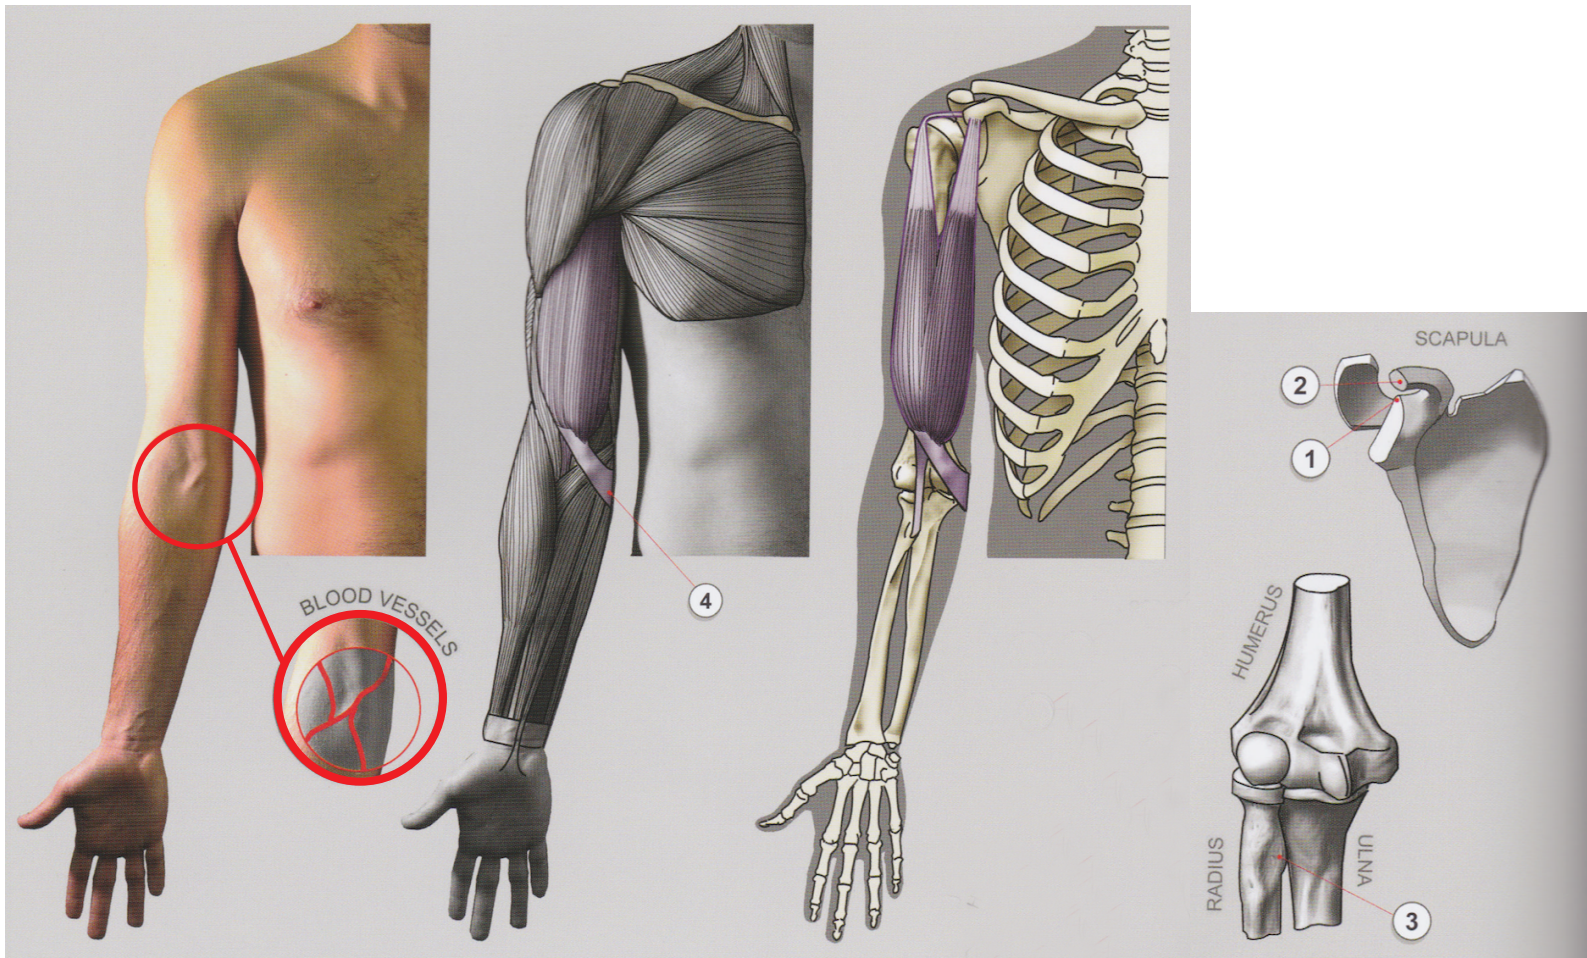

Brachialis

Biceps

BICEPS BRACHII

ACTION:

Moves the arm forward and assists in turning the hand outwards (Supination)

ORIGIN: Scapula

1- Supraglenoid Tuberosity

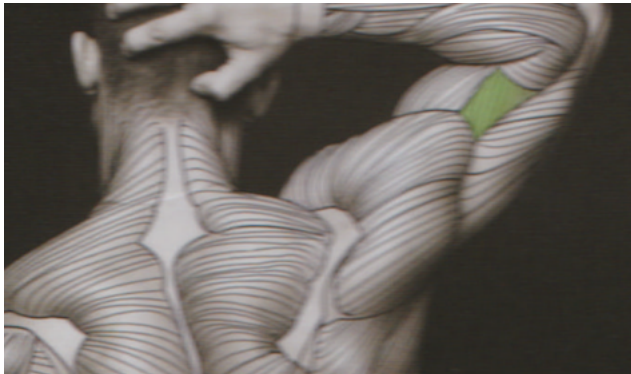

2- Coracoid Process

INSERTION:

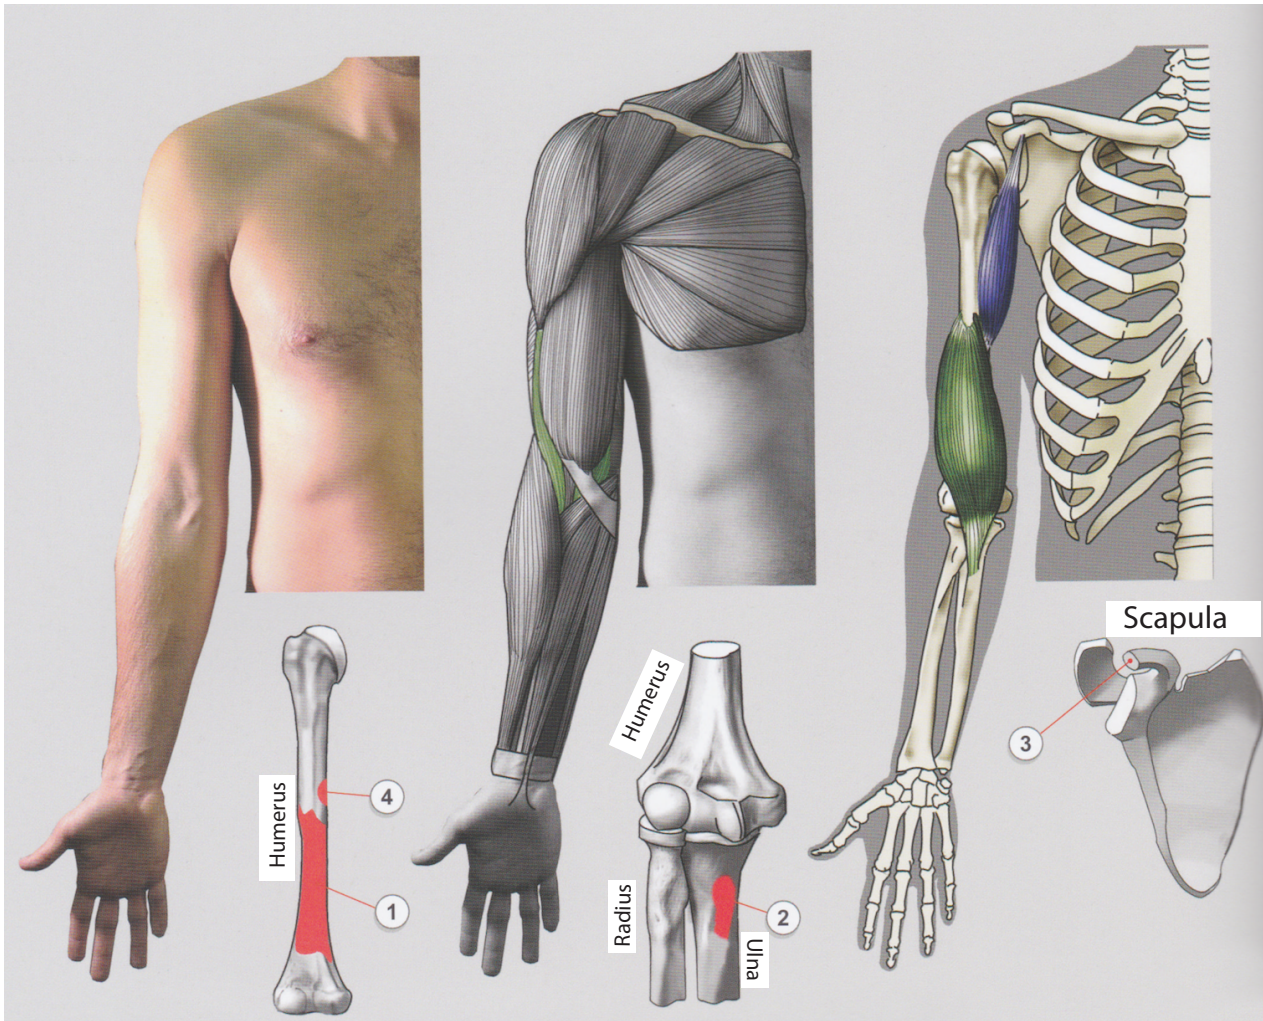

3- Radial Tuberosity

4- And Bicipital Aponeurosis into Deep Fascia on Medial part of Forearm

BRACHIALIS and CORACOBrachIALIS

BRACHIALIS and CORACOBrachIALIS

BRACHIALIS

ACTION:

Flexion at Elbow Joint

ORIGIN: Scapula

1-Anterior Surface of the Humerus

INSERTION:

2- Coronoid Process and the Tuberosity of the Ulna

CORACOBACHIALIS

ACTION:

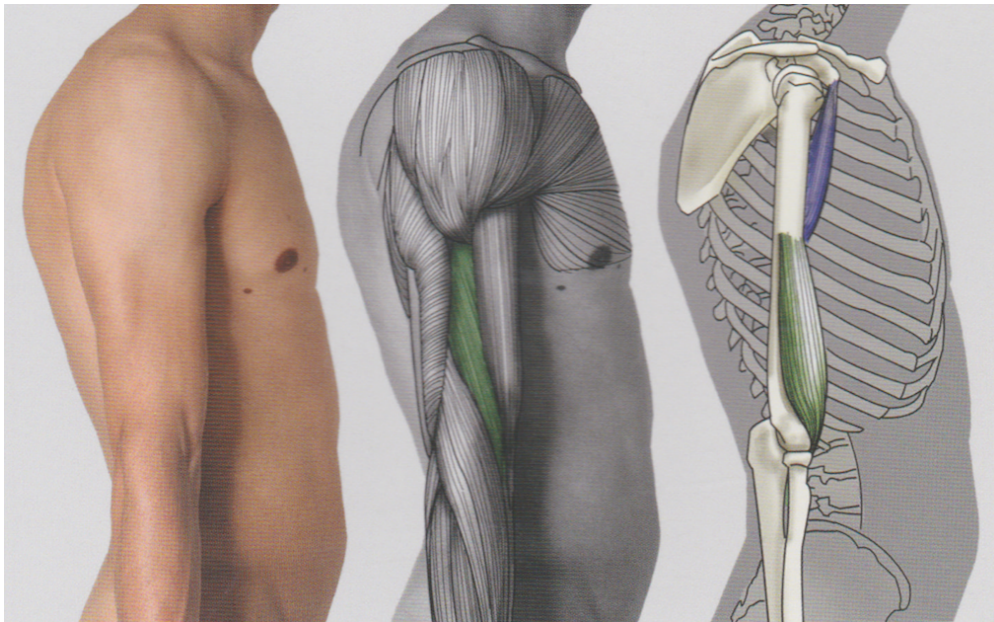

Adducts Humerus, Flexes the Arm at Glenohumeral Joint

ORIGIN:

3-Coracoid Process of Scapula

INSERTION:

4- Medial Humerus

BRACHIALIS and CORACOBrachIALIS
